Two Thousand Europeans Massacred—Thrilling Account of the Fearful Scene.

What a Correspondent Saw and Heard.

[By Cable to the Sentinel.]

LONDON, July 14.—The Daily Telegraph has the following from its correspondent:

"ALEXANDRIA, July 14.—Evening.—I took an open boat and went close alongside the land. I found all the batteries facing the sea destroyed and the guns dismantled. An Arab informed me that many hundreds of persons were killed between Adjami and Alexandria.

An explosion occurred in the middle of a fort, killing everybody inside. The light house will probably soon fall. The Arabs informed me the noise of the bursting shells was like thunder, and they declared hundreds of people were killed in distant streets. They stated that the obstinacy of the defense was owing to the fact that the batteries were manned by negro Mohammedans. They estimate the loss of life among the soldiers and townsfolk at 2,000. The naval officers witnessing the combat express an opinion that, with the exception of the Temeirite and gunboats, the English ships have not distinguished themselves very greatly as artillerymen. Many shells from the Monarch, Invincible, and Superb fell seriously short. Nearly half the missiles seemed to fall in the water. The guns likewise were served very slowly, giving the Egyptians time to recover from their surprise and regain courage. The foreign officers think lighter guns more quickly served would have ended the action sooner. They give the palm to Lord Charles Beresford, on the Omdur, who, under heavy fire, manoeuvred admirably, inflicting a heavy loss.

#### ANOTHER EXPEDITION.

LONDON, July 14.—Four hundred and fifty of household cavalry leave England to-morrow week. Destination unknown.

#### PREPARED TO FIGHT.

LONDON, July 14.—The Times this morning says: "By this last outrage Arabi Pasha has put himself outside the pale of humanity; he must be followed and his army dispersed. It is satisfactory to know that British preparations are complete, and that we are ready to carry out the will of Europe. If no other nation be found to do the work, and should Porto still hold back Lord Dufferin will state in conference that England is prepared to undertake the task, but will welcome the co-operation of any other government."

#### DETAILS OF THE FIGHT.

LONDON, July 14.—The Standard says the admiralty proposes to request Admiral Seymour to furnish a full report of the performance of each iron clad, with the details of the working of her armament.

#### THE DEAD.

LONDON, July 14.—A dispatch to the News from Alexandria says that number of persons massacred by the mob is estimated at 2,000.

#### OCCUPYING ALEXANDRIA.

LONDON, July 14.—Admiral Seymour telegraphs: "I have occupied Ras El Tin palace with marines and spiked the guns in six batteries opposite. The city is still burning, but I am clearing the streets. The Khedive is safe in the palace, which is guarded by 700 marines."

#### VICTORY THE WAY TO TOWN.

ALEXANDRIA, July 14.—The firing heard in Alexandria yesterday was by the marines and soldiers who were clearing the city of the mob.

to the center of town. There was some sharp fighting. No water could be obtained owing to the stoppage of the works.

#### THE KHEWIE'S PALACE LOOTED.

LONDON, July 14.—A dispatch from Alexandria says that some field pieces were landed with marines at Ras El Tin fort. The Khedive's Ras El Tin palace was looted shortly before the marines arrived. A whole battalion of Arabs was blown up in one fort during the bombardment.

#### THE TOWN STILL BURNING.

OFF ALEXANDRIA, July 14.—4 a. m.—The fire in Alexandria is still raging. There are at least two miles of houses burning. More than a third of the city appears to be on fire.

#### THRILLING ACCOUNT OF THE SITUATION.

LONDON, July 14.—A dispatch from Alexandria, dated 4 p. m., says: "The town is totally ruined. All the houses from the great square to the custom house have been plundered. In the square itself and other wealthy European quarters, there is hardly a building not ruined or still burning. The court house of the international tribunal has so far escaped. The Anglo Egyptian bank is also preserved. The streets are strewn with employment clerk and jewel cases and similar debris, but very few dead bodies have been found. Two-thirds of the troops deserted during the bombardment. After the Khedive's palace had been surrounded a party of soldiers entered his apartment and declared they had orders to kill him and burn the palace. After long parleying their loyalty was bought by promises of money. They then escorted the Khedive to the British at Ras El Tin. His guard was not allowed to enter the palace there with him. All ministers, except Arabi Pasha, presented themselves at Ras El Tin palace at 5 o'clock this evening. A detachment of marines marched through the town. Some plunderers were caught in flagrante delicto and summarily shot."

#### ARABI PASHA FLEES.

ALEXANDRIA, July 14.—Arabi Pasha fled from the city in a boat by the canal, but it is not known whither. It is understood his tapeps are dispersing.

#### STILL LOOTING THE TOWN.

ALEXANDRIA, July 14.—The Arabs are still looting the town. Admiral Seymour thought to land a force but the refugees informed him that 9,000 Egyptians occupied a position outside the city ready for an attack. It is said that the Egyptian killed number 600.

#### BOMBARDED.

A party of blue jackets landed at Fort Garrahe and spiked seven guns. This morning the Monarch fired at and destroyed another battery.

#### ARABI'S ARMY.

It is stated that Arabi Pasha has only four thousand badly disorganized soldiers.

#### Horrible Accident.

[By Cable to the Sentinel.] Moscow, July 14.—A train with 217 persons on board, ran off the rails between Tcherny and Basyaur. Over 178 persons were killed. Those not killed were injured more or less.

Last night a party of two well dressed young women and two men let themselves loose on Columbia street and yelled and howled "up and down that peaceful thoroughfare like demons. Officer Doyle came up and one of the women fled. The other three were begged and gave the assumed names of Fred Collins, Ed McNulty and Mary Johnson. They forfeited \$15 apiece at police court this morning.

This afternoon, in the circuit court, Messrs. W. G. and F. E. O'Connell brought suit against John T. Wismar in the name of Catharine O'Connell, demanding \$2,500 for slander.

#### AN ART EMPORIUM.

T. J. Nelson & Co.'s New Hardware Establishment—The Finest Appointed Sales-Rooms in the State.

This morning, by invitation of T. J. Nelson & Co., who will to-morrow formally show open to the public their retail hardware warehouses at Middle's old stand in the Keystone block, a number of newspaper men viewed his establishment, which is so attractive that hundreds have thronged the place all day. The firm is composed of Mr. T. J. Nelson, for seven years Prescott Bros. & Co.'s manager and buyer, and a young man who is credited with being the most sagacious purchaser and salesman of hardware in this part of the state, and Mr. John I. White, treasurer of the Base foundry and machine works. Mr. Nelson will however, have active charge of the business, and it was he who courteously conducted THE SENTINEL representative about his place.

The arrangements for the display of goods strike the eye as the most novel and convenient ever devised. The vast array of files, bolts, nuts, screws, knives, cutlery, etc., being upon square display boards with dark background, and at a glance, the customer is enabled to pick what he wants from the assortment without the loss of time occasioned by the old method, where the clerk had to pull out drawer after drawer and heap goods on the counter. These display boards cover cupboards, in which are the stock, and slip from their hinges, so that the intending purchaser may closer inspect. There is not a similarly appointed store in Indiana. Along the wall hang a line of saws of different sizes, commencing from the smallest and running up to the largest. The walls are decorated with artistic bird cages, and one in particular deserves mention. The cage proper is surmounted by two glass globes, one within another. In the outer globe, gold fish disport, while the bird has access to the inner globe. The effect is very pretty. Elegant, silver mounted show cases contain the latest novelty in scissors, pocket-knives and table ware of all kinds, some of the devices shown being very handsome. The silver plated ware is from the famous establishment of Roger Bros. and the Meriden Britannia Co. Some forks from the latter establishment are triple plated and of beautiful designs. The display of pocket-knives we never saw equalled. They are from the firm of Joseph Rogers & Sons, Messrs. Nelson & Co., have ordered \$500 worth of knives and razors direct from the manufacturer, Geo. Wostenholm and Sons, Sheffield, England, and they are en route. Some very handsome presentation caskets of scissors were particularly noticed by the reporter. In carving and game knives, a very complete assortment is kept. Expensive swinging bolt and screw cases containing every variety are features confined to this store. In brief, this firm will keep only the best goods and the latest novelties in fine hardware.

Usually a retail hardware store is a gloomy, musty smelling place, but Nelson & Co. have so beautified their storerooms with flowers, plants etc., that it is really attractive, and we feel sure will draw within the plate glass doors, the ladies who usually entrust their hardware shopping to the male members of the family. Above stairs are capacious warehouses for surplus stock and heavy hardware, all artistically arranged.

THE SENTINEL advises its readers to at once pay this superbly arranged establishment a visit, and at the same time express our belief that the new firm will have an immediate and substantial return for their liberal outlay and endeavor to please the public.

#### DRIVING MATINEES.

The Series Open Next Tuesday Night—A Race to be Arranged.

There are enough fine rollsters in the city to make it pleasant and profitable for a series of driving matinees. So think the Northern Indiana Fair association, who have gone to the expense of placing the track at Swinney park in excellent order. Workmen are now making the track equal to any in the state, and the Fair association will have the management of driving matinees, which will occur at least twice a week. Tickets are being rapidly disposed of at the low rate of \$5 apiece for the season, entitling the holder to the privileges of the ground.

The owners of showy and speedy horses are heartily interested, and there is no reason why the fair grounds will not present a gay scene during the summer evenings to come.

Next Tuesday evening occurs the inaugural matinee of the season which will be free to all. At 5 o'clock the track will be thrown open for horses and buggies and equestrians. A race between the fine stallions, "Belmont Prince," owned by A. O. Perrin, and "Frank Forester," the property of John Draker, is being arranged for the opening matinee. Mr. Draker offers to back his horse for any sum and Mr. Perrin is equally confident of the speedy accomplishments of his animal. There will be a large crowd on hand if a pleasant evening, and it is intended and expected that the fashion and beauty of the city will display themselves in some of the elegant turn outs for which our city is noted. The best of order will be enforced and special police will be on hand.

#### Collection Day.

On to-morrow THE SENTINEL carrier boys will call on subscribers for their monthly collection. Patrons will save the boys a vast amount of unnecessary trouble by having the change ready when they call.

If the Egyptians were better gunners, if they had known how to aim their guns, the bombardment of Alexandria might have been less of a one-sided affair. Of course, the ultimate result could not well have been different, but a greater variety of incidents would have been developed before it was reached. What we want to know above all things, to guide the marine architecture of the future, is how far a secure vessel can be made by iron armor against the improved cannon of the day. Manifestly if the gunner

the day. Manifestly, if the galleons who serve the cannon cannot aim to him, such a contest as that at Alexandria might go on for a month and teach us nothing. We do read in the details that one shot went clear through the Inflexible, and as that ship carried the heaviest guns of the fleet, four eighty-ton guns, it is fair to assume that its armor is as perfect as naval science can devise.

The *Ligonier Banner* says that "it is proposed to drain the swamp lands in the valley of the Kankakee, of which there are about one million acres now unfit for cultivation, and to decide whether or not such a plan would be feasible a survey has been made. The plan has been found to be good one and if an appropriation from the state or general government can be secured the work will soon be commenced. As is well known, the northern part of Indiana presents a plain

sloping gently to the west. The watershed of this region is in the vicinity of Fort Wayne, and the entire district is drained by the Wabash, St. Joe and Kankakee rivers with their numerous tributaries. The Kankakee has its source near South Bend, and it flows along this river, on either side, nearly to its mouth, that the vast swamps lie which it is proposed to reclaim. Should the marsh lands be reclaimed, the

the work ever be accomplished in the Kanakake valley, now comparatively worthless, will become one of the most productive in the west."

THE CITY  
FRIDAY, JULY 14

THE CITY

J. I. White is at Detroit.  
Ed. Neuenchwander is on his way  
home from Europe.

Miss Levenstein is in the city, the  
guest of Miss Hannah Fisher.  
Mrs. F. H. Baldwin and Miss Kate  
Barnett leave for the west to night.  
Mr. Warner, of Bluffton, is the  
guest of the family of W. H. Bassett.

Councilman Welch witnessed his  
second game of base ball yesterday  
and grew wildly enthusiastic.

An amateur base ball league  
is to be organized at Cincinnati.  
The Golden Eagles of this city will  
join.

In two or three days, Joe Bowers  
will break ground on his contract to  
construct the Broadway sewer, to cost  
some \$15,000.

Prof. John Grimm, the German  
teacher, has gone to Washington, D.  
C., to visit his son, a clergyman of  
that city, who is rapidly becoming  
blind.

E. B. Fickes is now employed at  
Pape's furniture factory as foreman  
of the finishing room. He will go  
back to the show business when the  
fall season opens.

Nappanee News: "Hon. Platt J.  
Wise, of Allen county, has been an-  
nounced by the democrats, and highly  
recommended, as a candidate for  
clerk of the supreme court."

A. D. Oresler came home from  
Pittsburg yesterday morning. As a  
present to his two bright little boys he  
brought a pure St. Bernard pup which  
will duly enlarge into a noble animal.

Henry Mohrnett has been appointed  
general passenger agent of the Nickel  
Plated, N. Y. Central and St. Louis  
railroads, with headquarters at Cleve-  
land. His appointment dates from  
July 1st.

The democratic malcontents are  
fading from view. Their lamentations  
were not listened to and their leader  
is ready to lie down and beg for  
mercy. Meanwhile the party in  
Allen county is uniting and marching  
restlessly on to another grand victory.

Appropos of the article on booze  
beats contributed to THE SENTINEL  
of last night, a saloon keeper on Cal-  
houn street says that day before yester-  
day he sent out \$1100 worth of  
bills and the collector returned with  
seventy cents! He will hereafter do a  
cash business.

Wednesday, the remains of a man  
frightfully mangled, were found lying  
on the Wabash track near Lafayette.  
Attached to a number of keys in his  
pocket was a tag bearing the name "J.  
Byrnes." There was nothing else in  
his pockets. His age must have been  
about thirty years.

People will remember the magnifi-  
cent team of six black horses which  
drew the coupe in the Forepaugh  
parade. At Bellefontaine, Ohio, on  
Tuesday, one of the animals was  
killed by a passing freight on the Bee  
Line, and three others wounded so  
that they will probably have to be  
shot.

The Plymouth Democrat says:  
"Platt J. Wise, of Allen county, is  
favorably spoken of as a candidate for  
clerk of the supreme court on the  
democratic ticket. He is a man well  
fitted for the position, combining ca-  
pability and trustworthiness, quali-  
ties which should be considered in  
selecting men for public trust."

Angola Herald: "Platt J. Wise, of  
Fort Wayne, aspires to a nomination  
at the hands of the democratic state  
convention for clerk of the supreme  
court. THE SENTINEL of that city  
is enthusiastic in his support, and ex-  
presses the opinion that the democ-  
racy could give the nomination to no  
more worthy man than Platt J.  
Wise."

The Peru Republican says: "Hon.  
A. R. Edgerton, of Fort Wayne, presi-  
dent of the board of school trustees,  
delivered an unique address to the  
graduates of the Grammar school re-  
cently. The popularity of the ad-  
dress is that it contains no word of  
more than one syllable. Mr. Edger-  
ton thinks there is really 'more merit  
in the truth of such an address than  
in its style.' This one is meritorious,  
however considered."

The Wabash Indian says that  
John Huffman lost a pocket book on  
the 4th that contained \$35 in money.  
He did not know where he lost it,  
whether in his home, on the car, or  
at Fort Wayne on that day. The  
pocket book was in an inside vest  
pocket, and he thinks it must have  
been lost while he was on the car.  
He has offered a reward of \$100 for  
its return.

THE CITY  
Henry E. Fisher, of the State Ze-  
itung, came home this morning from  
his trip to England and the west.  
He is enthusiastic over his travels.

Rev. Dr. A. T. Pierson, of Detroit,  
who was in the city the other day on  
his way to Rome City, has accepted a  
call to the pastorate of the Second  
Presbyterian church of Indianapolis.  
L. S. Page, a bright young gentle-  
man late with Prescott Bros. & Co.,  
has accepted a position as salesman at  
Norton & Co's new store. Mr. Page,  
by the way, is a son of Congressman  
Page of California.

Mr. Elias Matter, of Grand Rapids,  
is at the Mayer. Mr. Matter is presi-  
dent of the extensive furniture man-  
ufacture of Nelson, Matter & Co., of  
that city, and is also president of the  
Grand Rapids base ball club.

Deputy Sheriff Sam Miller, re-  
turned from Indianapolis this morn-  
ing, where he conveyed old Jane John-  
son the insane woman. She made con-  
siderable trouble, but Sam's persua-  
sive way soon subdued the old lady.

To-night occurs the contest at the  
rink for a pair of bronze skates to be  
awarded the best gentleman skater.  
Some thirteen will contest and THE  
SENTINEL is willing to bet that Mar-  
shal Falke will strap the prize to his  
feet.

Some fresh youths who tried to get  
onto a little snap last night, had their  
heads knocked together. They were  
then turned over to a policeman, but  
released upon their promising to seek  
their beds and stay in after dark in  
future.

The Wabash will place on sale, July  
15, at very low rates, a line of round  
trip tickets to Denver and other Col-  
orado points, for the benefit of those  
wishing to attend the grand national  
mining and industrial exposition to be  
held in Denver, commencing Aug-  
ust 1.

The Warsaw Indian says: "The  
eastern shore of Eagle lake could be  
made to eclipse Rome City as a sum-  
mer resort in every possible way.  
Why don't the Pennsylvania com-  
pany, which would be the principal  
gainer by such a move, take hold of  
the matter and in course of time have  
more visitors coming to this place  
during the summer season than they  
can find ears to carry."

President Simonson, of the Masonic  
Temple association, was served with  
notice this morning of the suit of  
the city against the association under  
section 8, chapter 48, City Ordinances,  
for encumbering Wayne and Clinton  
streets with lumber and building ma-  
terial. The demand is \$100. Mayor  
Zollinger, who is a trustee of the as-  
sociation, will send the case to some  
other magistrate for trial.

Buffalo Express: "Mr. M. Guilford,  
superintendent of construction of the  
New York, Chicago and St. Louis  
railway, left the city last night with a  
force of 150 men for Brockton, from  
which point the work of construction  
will be brought rapidly towards Buf-  
falo. With the exception of heavy  
work in the neighborhood of Cleve-  
land, this gap between Buffalo and  
Brockton is the largest piece of the  
road yet unfinished."

Vanderbilt is said to be buying  
heavily in Lake Erie and Western  
stock, but whether for speculation or  
permanent investment is not known.  
A Cleveland special says: "It is re-  
membered that a year ago, just before  
the Cincinnati, Hamilton and Day-  
ton and Cleveland, Columbus, Cin-  
cinnati and Indianapolis deal began to  
develop, Vanderbilt was a large  
holder in Lake Erie and Western, but  
sold out before the market fell, and  
never took a hand in the movement  
of the road. It is a matter of record
